

# Health Flows In The Family

Here's how AOX water made one man's family happier and healthier.

When it comes to health, it's only common sense that natural beats artificial every time. Nowhere is this more obvious than with AOX natural water alkalisers, which brings you and your family the benefits of 100% natural antioxidants alkaline water.

As compared to conventional water ionisers- which emit acid water wastage and have harmful radiation- AOX natural antioxidants alkaline water supplies essential minerals (Ca, MG, K, NA & Silica) to the body, and helps to combat acidosis, the

condition of having an acidic body.

Michael Sng, a happy consumer of AOX water, saw the benefits of drinking AOX water for both himself and his loved ones. He was the second AOX customer who found out that his ganglion cyst – a troublesome lump on his wrist – disappeared after 2 weeks of drinking AOX water. Though he did not understand why, he was happy to save a few thousand dollars on his scheduled surgery.

Michael's father-in-law, who had cataracts in his eyes, claimed that his vision brightened after rinsing his eyes in AOX water for several days. Michael's mother found reprieve from the discomfort of stiff, elderly hands. His sister-in-law Nancy needed to

take 10 painkillers per day for her chronic headaches, a side-effect of kidney dialysis. A month of consuming AOX water helped her to relieve the pain.

The convenience of having instant hot or cold natural antioxidants alkaline water makes AOX water the ideal choice to keep your loved ones healthy. Tested by the HSA and recommended by top medical professionals, AOX water has been used by 365 Cancer Prevention Societies and 15 other NGOs, and its results are proven by regular AOX health screenings.
